1935

SIXTY-SIXTH

ANNUAL REPORT

of the

Board of Management.

# NOTE.

Subscribers living in the Country or Suburbs upon whom the demand for orders for admission or treatment as outpatients is not great would confer a great favour on many necessitous cases by signing their order forms and forwarding them to the Secretary of the Adelaide Benevolent and Strangers' Society, Morialta Street, Adelaide.

# ANNUAL REPORT, 1935.

\_\_\_\_

The Board of Management of the Adelaide Hospital, in accordance with section 12 (1) of the Hospitals Act Amendment Act, 1921, has the honour to submit for the information of the Minister the sixty-sixth annual report on the administration, showing the condition and progress of the institution for the year ended 31st December, 1935.

The Inspector-General of Hospitals is the Chairman of the Board.

The Board held 54 regular meetings during the year. Quarterly conferences with the Honorary Staff were held, also conferences with the Advisory Committee. In addition, the Chairman and members confer continuously throughout the year and frequently visit the Hospital in connection with the administrative work. The condemnation of all worn-out and useless stores is carried out under their personal supervision.

The following figures are submitted relating to the treatment of in-patients, &c.:—

#### ADELAIDE HOSPITAL.

#### IN-PATIENTS. 1934. 1935. Admitted-Remaining in Hospital on 1st January ..... 468 11,191 11,596 11,659 Discharges during year— 1,105 Relieved ..... 7,291 7,030 Unrelieved ..... 1,278 1,409 Other causes ..... 541 590 Died ..... 853 812 Remaining in Hospital on 31st December ..... 468 452 11,596 11,659 Average number resident daily throughout the year ..... 546 540 Average number of days each patient who was discharged or died during the year, was resident in the Hospital 18:575 18.841

#### Cost of Treatment

(Excluding Laboratory and Dental Branch).

#### FINANCE.

Revenue.—The receipts from all sources, including all branches of the Hospital, for the year 1935 totalled £22,200 6s. 7d., as compared with £20,663 14s. for the year 1934, an increase of £1,536 11s. 9d.

The amount of patients' fees received on account of the Adelaide Hospital (excluding the Dental Branch) was £16,849 15s. 11d. for the year 1935, as against £14,624 2s. 5d. for the year 1934, an increase of £2,225 13s. 6d.

The laboratory revenue for the year was £2,223 16s. 10d., as compared with £2,231 14s. 7d. for the previous year, a reduction of £7 17s. 9d.

Details of revenue for the year 1935 will be found in Appendix No. 2. A comparison of revenue for the years 1921 to 1935 is also shown.

Expenditure.—Details of expenditure will be found in Appendix No. 2.

The total expenditure for all branches of the Hospital for the year 1935 was £111,622 9s., as compared with £103,732 16s. 3d. for the

previous year, an increase of £7,889 12s. 9d.

The expenditure of the Adelaide Hospital (excluding the Laboratory and the Dental Branch) was £102,197 0s. 7d. for the year 1935, as against £94,937 5s. 8d. for the year 1934, an increase of £7,259 14s. 11d. The greater part of the increased expenditure is accounted for by the following:—Salaries and wages, £3,694 4s. 5d.; provisions, &c., £537 1s. 6d.; equipment for new buildings, £2,192 14s. 4d.

Owing to the opening of the new buildings during the year, viz., Out-Patient Department, Admission and Casualty Block, and Tuberculosis Clinic, there was a considerable increase in the number of the paid staff. The total number of paid staff as at 31st December, 1935, was 506, as compared with 442 as at 31st December, 1934, an increase of 64. Included in this increased number are 44 additional nurses and 11 domestics.

The expenditure of the South Australian Government Laboratory showed an increase of £658 2s. 9d., as compared with the previous year. Salaries and wages accounted for £649 7s. 1d. of this increased expenditure.

The expenditure of the Dental Branch was £28 4s. 11d. less than the

previous year.

#### POPULATION.

The number of new patients admitted to the Hospital for the year 1935 was 11,191, being an increase of 51 on the number admitted during the previous year.

The total number of in-patients treated in 1935 was 11,659, as com-

pared with 11,596 in 1934, an increase of 63.

The number of in-patients treated has again reached the highest

point in the history of the institution.

Patients treated at the Out-Patients' Department numbered 23,550, as compared with 23,672 during the previous year, a reduction of 122. Out-patient attendances increased from 97,662 to 100,280.

At the Tuberculosis Clinic 537 persons were under treatment during

the year, as compared with 434 for the previous year.

The work at the Dental Branch showed a slight reduction. The total attendances for the year was 30,141 as compared with 30,978 for the previous year, a reduction of 837. The admissions for treatment were 4,843 in 1935, as against 5,212 in 1934.

#### HONORARY STAFF.

The Board desires to express its appreciation of the valuable services rendered by the Honorary Staff during the past 12 months. The following members of the Honorary Staff who retired by effluxion of time on the 30th June, 1935, in accordance with the Regulations, were re-appointed for a further term of three (3) years, viz.:—Dr. J. R. S. G. Beard, Gynaecologist; Prof. J. B. Cleland, Pathologist; Dr. H. M. Jay, Aural Surgeon; Dr. H. A. McCoy, Radium Therapist; Dr. J. S. Verco, Deep X-Ray Therapist; Dr. C. Gurner, Assistant Deep X-Ray Therapist; Dr. G. A. Lendon, Assistant Physician; Drs. R. F. Matters and B. H. Swift, Assistant Gynaecologists; Dr. W. C. Sangster, Assistant Aural Surgeon; Drs. F. J. B. Miller and M. Schneider, Assistant Ophthalmologists; Drs. E. C. Black, S. R. Hecker, H. E. Pellew, W. A. Pryor, N. T. M. Wigg, Anaesthetists; Dr. R. Godson, Mr. P. R. Begg, Mr. T. D. Hannon, Mr. J. A. O'Donnell, Dental Surgeons.

The following Honorary Clinical Assistants were reappointed for a term of one (1) year from the 1st July, 1935, viz.:—Drs. A. L. Dawkins, W. W. Jolly, S. Krantz, J. C. Mayo, B. C. Smeaton, G. H. Solomon, Surgical Section; Drs. R. T. Binns, R. G. C. de Crespigny, E. F. Gartrell, I. S. Magarey, H. G. Prest, Medical Section; Dr. G. H. B. Black, Ophthalmic Section; Drs. H. M. Fisher, R. L. Verco, Gynaecological Section; Dr. H. A. McCoy, Radiological Section; Dr. W. C. T. Upton, Dermatological Section.

#### Additional Medical and Surgical Units.

On the recommendation of the Honorary Staff, and with the approval of the Board, one additional Medical Unit and one additional Surgical Unit were established, and the following appointments made, viz.:—Surgical Section—Dr. A. Britten Jones, Surgeon; Dr. I. A. Hamilton, Assistant Surgeon; Dr. N. S. Gunning, Clinical Assistant; Dr. G. E. Jose, Clinical Assistant. Medical Section—Dr. H. K. Fry, Physician; Dr. E. McLaughlin, Assistant Physician; Dr. A. J. Hakendorf, Clinical Assistant; Dr. J. B. Gillen, Clinical Assistant. With the exception of Drs. Hakendorf and Gillen these officers did not assume duty until the opening of the new Clinic, which was postponed until the 1st February, 1936, owing to a depleted Resident Medical Staff.

#### Tuberculosis Section.

The new Tuberculosis Clinic was opened on the 23rd July, 1935, and the following Honorary Staff appointed, viz.:—Dr. D. R. W. Cowan, Physician; Dr. H. W. Wunderly, Assistant Physician; Dr. J. W. Rollison, Dr. J. L. Hayward, Clinical Assistants. Dr. J. W. Rollison was appointed Temporary Assistant Physician during the absence of Dr. Wunderly on leave, and Dr. A. C. Savage, Temporary Clinical Assistant, vice Dr. Rollison.

#### ORTHOPAEDIC AND PHYSIOTHERAPY DEPARTMENT.

On the recommendation of the Honorary Staff the Board created the above department, and the following Honorary Officers were appointed thereto, viz.:—Dr. H. R. Pomroy, Honorary Surgeon; Dr. L. O. Betts, Assistant Surgeon.

Owing to the postponement of the opening of this department until 1st February, 1936, these officers did not assume duty until that date.

#### OTHER HONORARY APPOINTMENTS.

The following honorary appointments were also made, viz.:—Dr. F. Humphrey Makin, Consulting Dermatologist, in recognition of his many years of valuable honorary service. Dr. A. H. Lendon (assumed office 1st February, 1936), Assistant Surgeon, vice Dr. A. Britten Jones, promoted. Dr. J. E. Hughes (assumed office 1st February, 1936), Clinical Assistant to Surgical Section, vice Dr. I. A. Hamilton, promoted. Dr. H. M. Rees (assumed office 1st February, 1936),

Clinical Assistant to Surgical Section, vice Dr. A. H. Lendon, promoted. Dr. S. R. Burston, Physician, vice Dr. D. R. W. Cowan, transferred to Tuberculosis Section. Dr. F. Ray Hone, Assistant Physician, vice Dr. S. R. Burston, promoted. Dr. K. S. Hetzel, Assistant Physician, sician, vice Dr. H. K. Fry, promoted to new unit. N.B.—Dr. Hetzeldid not assume duty until 1st February, 1936. Dr. W. C. T. Upton, Dermatologist, vice Dr. F. H. Makin, with status of Assistant Physician. Dr. A. J. Hakendorf, Anaesthetist, vice Dr. H. M. Fisher. Dr. V. de P. L. Rice, Anaesthetist (extra). Dr. J. B. Gillen, Anaesthetist (extra). Dr. C. B. Sangster, Anaesthetist (extra). Dr. S. Krantz, Clinical Assistant to Surgical Section, vice Dr. A. C. Savage. Dr. B. S. Hanson, Clinical Assistant to X-Ray Department (extra). Dr. L. W. Linn, Clinical Assistant to the Dermatological Section, vice Dr. Upton, promoted. Dr. L. W. Linn, Clinical Assistant to the Vaccine and Asthma Clinic, vice Dr. O. W. Frewin. Dr. J. M. M. Gunson, Clinical Assistant to the Medical Section, vice Dr. R. A. Haste. Mr. G. A. Frayne, Dental Surgeon, vice Mr. A. D. Cocks.

The following temporary appointments were also made, viz.:—Dr. E. F. Gartrell, Assistant Physician, vice Dr. G. A. Lendon, on leave. Dr. A. J. Hakendorf, Clinical Assistant to Medical Section, vice Dr. E. F. Gartrell, promoted. Dr. F. Ray Hone, Assistant Physician, vice Dr. H. K. Fry, on leave. Dr. C. B. Sangster, Clinical Assistant to Medical Section, vice Dr. F. R. Hone, promoted. Dr. K. S. Hetzel, Assistant Physician, vice Dr. H. K. Fry, on leave. Dr. G. H. Burnell, Surgeon, vice Dr. L. C. E. Lindon, on leave. Dr. J. C. Mayo, Assistant Surgeon, vice Dr. G. H. Burnell, promoted. Dr. W. W. Jolly, Clinical Assistant to Surgical Section, vice Dr. I. A. Hamilton, promoted. Dr. H. W. Wunderly, Assistant Physician to Tuberculosis Clinic, vice Dr. J. W. Browne. Dr. H. M. Fisher, Assistant Gynaecologist, vice Dr. R. F. Matters, on leave. Dr. H. E. Pellew, Clinical Assistant to Gynaecological Section, vice Dr. H. M. Fisher, promoted.

#### LEAVES OF ABSENCE TO HONORARY STAFF.

Dr. L. C. E. Lindon, Surgeon, six months' leave from 30th April, 1935. Dr. G. Brown, Anaesthetist, six months' leave from 13th March, 1935. Dr. M. T. Angel, Anaesthetist, six months' leave from 7th June, 1935. Dr. C. Gurner, Assistant Deep X-Ray Therapist, six months' leave from 30th March, 1935. Dr. R. F. Matters, Assistant Gynaecologist, six months' leave from 7th September, 1935. Dr. H. W. Wunderly, Assistant Physician, extension from 6th August, 1935, to 1st April, 1936.

#### OBITUARY.

Dr. A. A. Lendon, Honorary Consulting Physician, who rendered valuable honorary service for many years. The late Dr. Lendon was the first Chairman of the Anti-Cancer Campaign Committee. The advice and assistance received from time to time was greatly appreciated by the Board.

#### NIGHT CLINICS—VENEREAL DISEASES.

Following upon a re-arrangement of the above Clinics, the following appointments were made from 1st July, 1935, viz.:—Dr. G. H. Burnell, Honorary Consulting Adviser (Male Section). Dr. R. F. Matters, Honorary Consulting Adviser (Female Section). Dr. G. E. Jose, First Medical Officer (Male Section), without honorary status. Dr. J. M. Dwyer, Second Medical Officer (Male Section), without honorary status. Dr. H. M. Fisher, Medical Officer (Female Section), without honorary status.

#### ADVISORY COMMITTEE.

The members of the Advisory Committee are as follows:—Dr. F. S. Hone, nominated by the Council of the University; Dr. W. Ray, nominated by the Faculty of Medicine; Mr. H. Gill Williams, nominated by the Faculty of Dentistry; Dr. E. Angas Johnson, Hon. R. D. Nicholls, M.P., nominated by the Adelaide Hospital Board; Dr. C. T. Ch. de Crespigny, Dr. I. B. Jose, nominated by the Honorary Staff.

The Board desires to express its appreciation of the advice rendered by the Committee during the year.

#### Official Visitors.

The following Official Visitors were re-appointed for a term of one (1) year, viz., Lady Hackett Moulden, Mrs. M. B. Martin, Mr. T. P. Howard, M.P.

The regular visits of the Official Visitors, and advice received from them from time to time is appreciated by the Board.

#### Building Additions.

The following new buildings were completed and occupied during the year:—Out-Patients' Department, opened 5th August, 1935; Casualty and Admission Block, opened 3rd August, 1935; Tuberculosis Clinic, opened 23rd July, 1935.

#### YATES AND DA COSTA WARDS.

The remodelling and renovating of the Yates and Da Costa Wards, with the addition of an Operating Theatre, was completed during the year.

#### ADELAIDE HOSPITAL AUXILIARY.

The Board appreciates the very valuable work undertaken by the Adelaide Hospital Auxiliary for the benefit of the Hospital and inmates during the year.

The kiosk in the Hospital grounds is open each day from 9 a.m. to 5 p.m., when refreshments are on sale.

Profits from the kiosk, and other funds raised by the Auxiliary, are expended in providing bed linen, &c., for the wards. Such expenditure is subsidised by the Government, and will ultimately be expended on the erection of a Women's Block on the Hospital grounds.

The work of the Sewing Circle Branch is greatly appreciated.

#### DIRECTOR OF LABORATORY.

Dr. Eugene McLaughlin resigned as Director of the Laboratory as from 30th September, 1935, and was thereupon appointed part-time Director until the appointment of a successor.

#### GOLD MEDALLISTS.

The following Probationer Nurses, having passed first class in the examinations, were each presented by the Board with a gold medal, viz., Clara Elizabeth Riggs, Githa Kathleen Hammill, Mary E. Fitzgerald.

#### RADIUM AND DEEP X-RAY THERAPY.

The Anti-Cancer Campaign General Committee continues to provide funds towards the cost of the work of this branch of the Hospital.

#### STEAM AND HOT WATER SERVICES.

Considerable savings continue to be made in the gas consumption as a result of the installation of steam and hot water services to the various portions of the Hospital.

The savings so effected for the year ended 31st December, 1935, were £1,496 ls. 7d. The total amount advanced on loan by the Commissioners of Charitable Funds for these services is £1,695 ls. 3d., which is to be repaid by instalments equal to one-half of the savings in the gas accounts.

## LETTERS OF APPRECIATION.

Many letters of appreciation were received during the year from patients and their friends in acknowledgement of the care and treatment received.

#### Bequests and Donations. Bequests— £ d.S. The late Helen Griffiths ...... 875 0 0 The late Matthew Lomman, second instalment... 3 464 0 0 The late George Milne..... 100 0 The late George Johnston ..... 1

Donations—		s.	
Raised by the Adelaide Hospital Auxiliary	600	0	0
S.A.R. Employees' Hospital Fund, for comforts			
for sick nurses	10	10	0
Thorngate's Trustees	30	0	0
Australian Broadcasting Commission and 5CL			
Boys' Club, for wireless for Hospitals	250	0	0

The Board acknowledges with thanks the receipt of the above bequests and donations, also the annual contributions listed herein.

#### GIFTS.

Appreciation is expressed of the following gifts, viz., magazines, books, clothing, flowers, produce, &c., from many benevolent persons and societies.

The help rendered by lady visitors, Toc H, and other societies, is also appreciated.

Attached are statistics, reports, &c.

I have the honour to be, Sir,

Your obedient servant,

L. W. JEFFRIES,

Chairman, Adelaide Hospital Board.

## APPENDIX No. 4.

## OPERATIONS FOR 1935.

OPERATIONS ON BLOOD VESSELS.

Ligature of arteries	4
Excision of varicose veins	_ 1
Excision of varicocele	$\frac{1}{93}$
Blood transfusion	93
Aneurysm	3
Ligature of jugular vein	1
Angioma	î
Intraneneous Injection	•
OPERATIONS ON MUSCLES, BURSAE, TENDONS, AND NERVES.	
	6
Tenotomy	55
Suturing tendons and muscles	1
Excision of bursa Excision of ganglion	î
Excision of gasserian ganglion	$\overline{2}$
Tendon transplantation	5
Nerve anastomosis or transplantation	
Suturing nerves	
Resection of nerve and division	6
Stretching of nerve	1
Suturing nerve	2
Excision of neuroma	1
Freeing nerve from callus	2 1 2
Injection into nerve	1
Sympathectomy	2
Ramisectomy	
Opening Bursa	1
Exploration of Wharton Duct	1
OPERATIONS ON BONES.	
(a) Skull—	
Elevation of depressed fracture	4
Exploratory trephine	2
Unilateral subtemporal decompression	20
Ventriculography—Drainage of ventricles	13
Drainage of cerebral abscess	8
Removal of cerebella tumour	2
Suboccipital decompression	3
Bilateral subtentorial decompression	-
Removal of cerebral tumour	-
(b) Spine—	
Laminectomy	4
Excision coccyx	2 2 6
Lumbar puncture (general anaesthetic)	6
Lumbar puncture (local anaesthetic)	_
Albees bone graft to spine	
(c) Fractures— Reduction and setting of fractures (by manipulation only, under	
G.A.)	118
Reduction of fractures and dislocation	10
Wiring of fracture	12
Plating of fracture	-
Removal of plates and wires	
1	

#### OPERATIONS ON BONES—continued. Suturing patella ...... 5 Removal of callus ..... Correction of malunited fracture (osteoclasis)..... 5 Freshening ends of ununited fracture ...... 29 Insertion of pin through tibia, &c. ..... 36 Re-insertion of T.P. nail ..... 6 Bone graft ..... 1 (d) Amputations and excisions— Amputation of— Toes ..... Foot ..... 1 Leg ...... 21 Thigh ..... 1 Fingers ..... 20 Hand ..... 1 Forearm ..... 3 Upper arm ...... 4 Stump ..... Astragelectomy ..... 1 Tarsectomy ..... Excision of metatarsal bone ..... 3 2 1 12 Sequestrectomy ..... 14 Osteotomy ..... 9 Excising and curetting sinuses ..... Aspiration of T.B. abscess (bone dis.) ..... Removal of bony spurs ..... Curetting bone ...... Excision of osteophytes ..... 2 Other excisions ...... 10 Removal of toenails and fingernails ..... 4 OPERATIONS ON JOINTS. Reduction of dislocation (by manipulation)..... 11 Reduction of dislocation (by open operation)..... 1 Aspirating joint ...... 5 Arthrotomy ..... 9 Arthrectomy ...... 1 Arthrodesis ..... 8 77 Moving of stiff joints ..... Excision of semilunar cartilage..... 20 Correction of hallux valgus—Bunion..... 3 Correction of hammertoe ..... Exploration of T.B. sinus ..... 2 OPERATIONS ON GLANDULAR SYSTEM. Excision of gland (diagnostic)..... 17 37 3 39 7 Removal of thyroglossal cysts and other cysts of neck ......

#### OPERATIONS ON ALIMENTARY SYSTEM.

Mouth, tongue, lips, &c.—	
Extraction of teeth	
Excision of lip (partial or complete)	
Excision of lip and glands	
Partial or complete excision of tongue	3
Partial or complete excision of tongue and glands	
Excision of jaw (lower) and glands of neck	
Excision of jaw (upper)	-
Closing of salivary fistula	
Oesophagoscopy	
Removal of F.B. from oesophagus	4
Removal of dentiferous cyst or epulis	_
Repair of cleft palate	
Removal of salivary calculus	4
Excision of parotid tumour	$\hat{3}$
Repair of hair lip	
Stomach and intestines—	
Gastrectomy	5
Gastrostomy	
Gastroenterostomy	21
Closing perforated peptic ulcer	19
Excision of peptic ulcer	. 1
Exploratory laparotomy	73
Freeing abdominal adhesions	
Paracentesis abdominis	
Closure of intestinal perforation	
Colostomy	
Enterectomy	
Entero anastomosis	
Enterostomy	·
Appendicectomy	
Drainage of appendical abscess	15
Drainage of subphrenic abscess	
Drainage of other abdominal abscess	. 9
Caecostomy	
Relief intestinal obstruction	
Repair of faecal fistula	
Release of gastro-enterostomy	
Repair of twisted omentum	
Opening colostomy	. 9
Closing colostomy	. 9
Pyloroplasty	. 1
Removal of cyst from abdominal cavity	
Removal of foreign body in intestines	
Lateral anastomasis	
Appendicostomy	. —
Caecoplication	
Crushing spur of bowel	
Hernia—	
Inguinal hernia. Radical cure	. 148
Inguinal hernia. Strangulated	. 7
Femoral hernia. Radical cure	
Femoral hernia. Strangulated	
Z OHIOTHI MOTHUM NOTHING MINDOW	,

## OPERATIONS ON ALIMENTARY SYSTEM—continued.

Hernia—continued.	
Ventral hernia. Radical cure	$\begin{array}{c} 15 \\ 2 \end{array}$
Incisional hernia	1
Umbilical hernia	9
Hernia alba	1
I iver, gall bladder, spleen, pancreas—	
Incision and drainage hepatic abscess	1
Hydatid cyst	5
Repair ruptured liver	$\frac{1}{19}$
Cholecystotomy	113
Cholecystenterostomy	7
Linectomy	_
Repair of ruptured spleen	
Choledochostomy	4
Needling of liver abscess	3
Rectum and Anus—	
Haemorrhoids. Radical cure	14
Injection of haemorrhoids	1
Fistula in ano. Excision	
Fistula in ano. Radical cure	12
Dilatation of stricture	$\frac{1}{22}$
Excision of papilloma rectum	1
Excision of rectum	$\tilde{7}$
Sigmoidoscopy	25
Protoscopy	5
Fissure in ano	5
Repair of prolapse of rectum	$\frac{1}{5}$
Incision peri-anal abscess	2
Dilatation anal spinictor	
OPERATIONS ON URINARY SYSTEM.  Kidney—	
Exploration of kidney	5
Nephrectomy	22
Draining perinephritic abscess	4
Removal of stone from kidney	_
Nephropexy	5
Cystoscopy	307
Suprapuble cystotomy	60
Perineal prostatectomy	—
Calculus, Lithetrity	
Nephrotomy	4
Removal of stone from bladder	8
Cystoscopy and pyelogram	157
Prostatic punch	(
Drainage for extravasation of urine	38
Passing bladder sound or catheter	90
External urethrotomy	_
Excision of urethral stricture	4
Excision of urinary stricture	_
Excision of urinary fistula	_

## OPERATIONS ON URINARY SYSTEM—continued.

Kidney—continued.	
Incision of prostatic and periurethral abscess	
Lavage of renal pelvis	10
Removal of stone from ureter	
Suprapuble prostatectomy	52
Application of diathermy to bladder	15
Removal of F.B. from bladder	1
Excision of urethral caruncle	8
Transplantation of ureters	1
Cystectomy Perineal Prostatectomy	
Lithotrity	
Opening prostatic and periurethral abscess	3
Repair of ruptured urethra	
Catheterization of ureters	4
Separation band from ureter	15
Removal of urethral calculi	1
Meatotomy	1
OPERATIONS ON MALE GENITAL ORGANS.	
Incision of prepuce	1
Circumcision	18
Reduction	—
Paraphimosis	
Radical cure. Undescended testicle	5
Radical cure of hydrocele	10
Amputation of penis	
Orchidectomy	5
Epididymectomy	
Haematocele	2
Repair twisted testicle	
Belfield's operation	1
Excision of seminal vessicles	1
Fulgaration penile warts	$\frac{1}{2}$
Repair of torsion of testes	1
Vaso-puncture	1
vaso-puncture	
GYNAECOLOGICAL OPERATIONS.	
Vulva—	
Incision of Bartholin's abscess	11
Excision of cysts and new growths	6
Perineorrhaphy	116
Vagina—	
Ant. colporrhaphy	74
Post colporrhaphy	13
Plastic for fistulae	10
Post colpotomy	62
	5
Insertion of pessary	2
Colpoperineorrhaphy	2

## GYNAECOLOGICAL OPERATIONS—continued.

Uter	us—	
	Dilatation of cervix	1
(	Curettage 4	<b>1</b> 9
		1
	Myomectomy	
	Painting of cervix and urethra, etc	1
4	Subtotal hysterectomy	5
	Total hysterectomy	2
	Amputation of cervix	
	Wertheim's operation	
]	Removal of polyp	14
	Cauterization of new growth	
	Suturing perforated uterus	]
\$	Shortening of round ligts	8
		4]
	Ventrosuspension	
	Ventrofixation	1
1	Biopsy of cervix	42
1	Removal of gauze	]
I	Hysterogram	E
	Hysterotomy	2
(	Cauterization of cervix	55
I	Repair of urethral prolapse	2
Ovary	7 and tubes—	
Ē	Excision of ovarian cyst	5
		13
		28
S	Salpingectomy	53
		61
		25
	alpingostomy	2
I	nduction of labour	
C	Caesarean section	1
F	Partial resection ovary	8
F	Treeing of pelvic adhesions	19
F	Repair of ruptured ectopic gestation	23
C	Graniotomy	_
I	igation of tubes	5
F	Rubners test	1
I	mplantation of ovary to uterine wall	1
S	uture of perinium	1
	OPERATIONS ON THE BREAST.	
Inciei		28
	ion of tumour	-3 7
	tation of breast	7
-		25
_	y of breast	7
- Yo ho	,	

#### OPERATIONS OF THE THORAX.

Thoracotomy—Drainage	24
Hydatid	2
Thoraco-plasty	1
Cauthotomy	3
Thorascopy	_
Pneumolysis	
OPERATIONS OF THE EYE.	
Excision of tumours	44
Plastic operations on lids	40 111
Removal of pterygium	$\frac{111}{2}$
Removal of tear sac	17
Paracentesis	
Washout and currettage of anterior chamber	7
Relief of sacrimal duct obstruction	3
Tenotomy	9 7
Tenotomy with advancement	11
Advancement Tarsectomy	$\frac{11}{2}$
Enculeation of globe	$1\overline{4}$
Evisceration	11
Encleation of globe	
Extraction of lens	80
Peritomy	8
Iridectomy	$\begin{array}{c} 51 \\ 6 \end{array}$
Removal of foreign body	38
Posterior sclerotomy	
Tattooing leucoma	
Keratotomy	6
Needling lens	39
OPERATIONS ON EAR, NOSE, AND THROAT.	
Removal of aural polyp	12
Paracentesis tympani	ĩ
Operations on mastoid antrum—	
Palliative	40
Radical	27
Operations on maxillary antrum—	184
Palliative	34
Operations on sphenoidal, ethmoidal, and frontal sinuses	23
Excision of turbinal bone	9
Resection of nasal septum	54
Removal of nasal polyp	28
Tonsillectomy	$\frac{280}{58}$
Tonsillectomy and adenoidectomy	4
Adenoidectomy  Laryngotomy	
Removal of papilloma of pharynx	$\frac{1}{2}$
Removal of F.B. from air passages	
Tracheotomy	1
Bronchosopy	7
Other operations, on ear, nose and throat	3

#### GENERAL.

Plastic operations on ear, lips, and cheek	6
Flastic operations on law, palate, and nose.	٦
Skin grafts	. 12
Other plastic operations.	. 12
Removal of superficial tumours and rodent ulcer	
Incision of abscess and cellulitis	. 59
Removal of F.B. from soft parts	126
Excision of sinus and soor tissue	. 20
Excision of sinus and scar tissue.	15
Excision and suture of wound.	. 173
Burying radium at operation	,
romoval of fadium needles	9
Application of plasters, &c.	110
ompoing for interescopic examination	12
Oauterization	G 5
Diessing wounds under anaesthesia	20
insertion of radium needles	110
Dissection of skewes ducts	2
_	
Grand total	6 460
	0,100

#### X-RAY DEPARTMENT.

REPORT OF WORK DONE DURING 1935.

Honorary Radiologist—Dr. H. C. Nott. Radiographer—Mr. C. H. Marshall.

Reactions tested	42	51
	602	568
Patients under treatment in Hospital, December 31st, 1935—in-patients, 9; out-patients, 37	44	46

#### RADIO-THERAPEUTIC DEPARTMENT, 1935.

Total new cases	 	688
Total visits	 	8,613

The number of new admissions represents an increase on last year of 23 per cent. Thus it will be seen that lack of bed accommodation was noticed even more than in earlier years, and the provision of six beds for females in Alfred Ward was much appreciated. Even with this, however, the accommodation is still not as much as would be desirable.

Provision of the old Casualty cubicles as waiting room accommodation for the department has helped considerably. Their benefit, of course, will be noticed particularly during the winter months.

#### RADIUM DEPARTMENT.

(Dr. H. A. McCoy.)

(	
Total number of patients treated	$695 \\ 824$
Made up as follows:—92Needlings—Intracavitary92Needlings—Interstitial41Plates303Moulds25Radon treatments363	

Provision of some longer needles and a greater quantity of radium tubes during the year have been of assistance in treatment of cancer of the breast and cancer of the uterus. The radon supplies for most of the year were more satisfactory, and it will be noticed that many of our patients are treated as out-patients with radon. Approximately half of these people would require admission in the absence of radon needles, and each one would be admitted for approximately six days, so that the saving to the Hospital in "bed-days" can be appreciated.

#### DEEP X-RAY DEPARTMENT.

(Dr. J. S. Verco.)

(Assistant—Dr. Colin Gurner.)

Total number of patients treated	398
Total number of treatments given	3,617
Total number of courses of treatment	412

Towards the end of 1935 the machine, which has been in action for over five years, began to show the need for replacement of certain parts. Opportunity was taken to install a water-cooled tube to operate at a higher milliamperage, and thus treat twice as many patients as the old tube in any given time. The longer hours, at times with a waiting list, have thus been done away with.

# REPORT ON DENTAL DEPARTMENT, 1935.

Superintendent—T. D. Campbell, D.D.Sc.

Senior Dental Surgeon and Demonstrator—J. F. Clark, B.D.S.

Dental Surgeons—A. E. Bolt, Miss W. E. Preedy, B.D.S. (Half-time).

Senior Dental Mechanic—L. A. M. Brougham.

#### STUDENTS.

Students attending the practice of the Hospital were as follows:—Second year, 4; third year, 4; fourth year, 1; fifth year, nil.

#### GENERAL REMARKS.

In spite of the apparent decrease in unemployment, application for treatment by indigent persons is maintained. The number of "border line" cases definitely in need of treatment constitutes a difficult problem.

The demand for artificial dentures is still so great that appointments have to be made considerably in advance.

# LABORATORY OF BACTERIOLOGY AND PATHOLOGY, ADELAIDE HOSPITAL.

STAFF.

Director:

E. McLaughlin, M.B., B.S., Adel., M.R.C.P.

Deputy Director and Bacteriologist:

A. E. Platt, M.B., B.S., Sydney, D.T.M., D.T.H., Sydney, Dip. Bact. London.

Temporary Bacteriologist and Micro-Pathologist: Effic Jessie Hone, M.B., B.S., Melb.

Bio-Chemist:

R. J. Cowan, B.Sc.

Bacteriologist in Charge of Vaccine Department:
Douglas L. Barlow, M.D., Adelaide.

Honorary Pathologist:

JOHN B. CLELAND, M.D., Ch.M., Sydney.

Veterinary Pathologist:

GEORGE CAMERON McLENNAN, B.V.Sc., Melb.

The work of the laboratory is clearly separated into two main divisions, viz., work done for patients admitted to the Adelaide Hospital for treatment and that done for private medical practitioners. boards of health, Stock Department, and other public institutions. All the work in these two main divisions is more or less of a routine character, but wherever possible, research or investigational work is carried out on diseases of man and animals, and also on the improvement of laboratory methods used in the diagnosis of disease. As far as possible this work is summarised in the following table, but this summary does not represent all the activities of the staff, which, in addition, concerns itself in the care and maintenance of apparatus; the preparation of staining solutions, culture, media, &c., for use by students both in the Hospital and at the University; assistance to the Honorary Pathologist in the building up and maintenance of a museum and pathological and bacteriological examinations in connection with the post morten room; the maintenance of a library of current scientific publications on pathology, bacteriology, bio-chemistry, and related subjects.

It is not possible to give a very accurate picture of the activities of the laboratory staff and the work done by giving the actual number of examinations made, for one examination may involve, for example, 10 times the amount of time that another does. For the most part, however, such a summary does convey, particularly to those familiar with laboratory work, some idea of the main activities of the staff.

(b) Private	48	
		170
		22,327
Less examinations mentioned twice		699
Grand total	• • • • • • •	. 21,628

The Clinical Pathological examinations performed for the Adelaide Hospital include—(1) The histological diagnosis of pathological tissues, several of which were immediate examinations performed during operations (such examinations are done in order to help the surgeon in determining the extent and nature of the operation necessary); (2) the examination of urine to detect abnormal chemical and morphological elements; (3) the examination of faeces to detect the presence of abnormal elements; (4) the examination of cerebro-spinal fluid to detect cellular and chemical change (this examination is extremely useful in detecting syphilis of the central nervous system); (5) the examination of the blood to detect the presence of the various anaemias and leukaemias; (6) the examination of material for the detection of Treponema pallidum in the diagnosis of syphilis; (7) the examination of fluids from various cavities and cysts to determine their nature.

The bio-chemical examinations performed for the Adelaide Hospital include—(1) The estimation of the amount of sugar in the blood (this examination is made as an aid to the diagnosis of diabetes, and is made either after a fasting period or after the administration of glucose when several examinations are made to trace the rise and fall in the blood sugar); (2) the estimation of the urea nitrogen in the blood; (3) the examination of the gastric contents after a test meal, samples being taken at frequent intervals over a period of two and a half hours; (4) colloidal gold curves on cerebro-spinal fluids; (5) chemical examinations of various body fluids.

The Bacteriological examinations performed for the Adelaide Hospital include—(1) The examination of sputum for the detection of tubercle bacilli and other bacteria, and also for hydatid hooklets; (2) the examination of blood for the Widal reaction (this examination is important in assisting in the diagnosis of typhoid fever); (3) the examination of swabs taken from the throat and nose to detect the presence of diphtheria bacilli; (4) the examination of urine to detect the presence of tubercle bacilli, colon bacilli, and other bacteria; (5) the examination of inflammatory fluids, for the detection of bacteria, e.g., pleuritic fluid for tubercle bacilli; (6) examination of cerebral-spinal fluid to detect the presence of tubercle bacilli, meningococci, and other bacteria; (7) the cultural examination of blood to detect the presence of bacteria

in the circulation; (8) the examination of faeces and urine for the detection of typhoid bacilli and other pathogenic bacteria; (9) the examination of pus for the detection of gonococci, actinomyces, and other bacteria. Bacteria isolated from the various fluids and materials are often used in the preparation of autogenous vaccines.

The Wassermann Reaction was performed on Thursday in each week. This reaction is of great value in the diagnosis and treatment of syphilis. The Griffith & Scott technique is employed throughout.

The examinations performed and classified under the head *Private Work* include in the main such examinations as described under clinical pathological, bio-chemical, and bacteriological examinations. Much work was done for the Board of Health. Included in the examinations are also:—Examinations of various foodstuffs for the detection of bacterial contamination; (2) examination of drinking water to determine its suitability for drinking purposes. Included under this head are regular examinations for the Hydraulic Engineer's Department and for the Adelaide Local Board of Health; (3) the examination of disinfectants to determine their germicidal power; and (4) medicolegal examinations.

The routine examinations for the Stock Department include—(1) Bacteriological examinations of cow's milk for the detection of tubercle bacilli and other bacteria; (2) morbid tissues for histopathological examination; (3) examination of faeces to determine the presence of parasitism; (4) examination of cow's blood for the diagnosis of contagious abortion by the agglutination test; (5) specimens removed post mortem from animals dying from various causes, &c.

The investigations into bovine Haematuria and caseous lymphadenitis in sheep which are being carried out in association with the Commonwealth Council for Scientific and Industrial Research were continued during the year.

The Vaccine Department, as well as preparing 170 separate vaccines, also administered inoculations of vaccine to hospital patients. During the year 342 hospital patients were under treatment. In all, 2,071 doses of vaccine were administered; also 236 doses of tuberculin were given to 14 patients. Vaccines were prepared for 42 patients under the care of private practitioners, and 718 doses (including 85 doses of tuberculin and 202 doses of T.A.B. and B.C.C.), and 94c.c., were supplied in bulk to private practitioners.

The Vaccine Department continued to undertake the work of testing asthma and hay fever patients for sensitization against various extraneous substances, and to carry out the appropriate treatment.

During the year 81 patients were tested against the various pollen, protein, and epithelial extracts. Sixty-eight patients were treated and received 1,238 doses.

Summary and Comments.—The total number of examinations made at the laboratory were slightly less than last year, owing almost entirely to the fact that with the opening of the Northfield Infectious Diseases Hospital, all swabs taken by the Local Boards of Health were examined at that institution. The total number of private specimens was reduced for the same reason. The number of Hospital examinations show a slight increase.

Within recent years there has been a very considerable increase in certain clinical-pathological examinations, notably in test meals. The increasing tendency for these examinations to be done at the laboratory rather than in the wards, and for examinations, which formerly necessitated admission to the In-Patient Department, to be done from the Out-Patient Department, has greatly increased the work of the laboratory staff, and thrown a severe strain upon the accommodation available for such purposes. The proposed new Laboratory Building should overcome all difficulties of accommodation.

Dr. A. E Platt commenced duties on 1st February as Deputy Director, and Dr. E. McLaughlin resigned from the position of Director in October. His services were retained, however, until the arrival from England of Dr. E. W. Hurst, who has been appointed to the position of Director. His arrival is expected in October, 1936.

The addition of a typiste to the clerical staff has enabled the extension and completion of a new recording system to be carried out. This system has greatly facilitated the work of the laboratory, not only in making records more easily accessible and complete, but also in removing much clerical work from the technical staff.

By the generosity of the Commissioners of Charitable Funds, many valuable scientific journals have been bound and thus preserved. This work is not yet complete, but we are now able to keep our journals in good condition.

## VENEREAL DISEASES.—NIGHT CLINICS.

#### REPORT FOR YEAR ENDED 31st DECEMBER, 1935.

Improved accommodation for the treatment of venereal diseases is urgently necessary.

The Venereal Diseases Act, passed by Parliament in 1920, has not yet been proclaimed. The provisions of this Act could not be effectively carried out until accommodation for the treatment of both in-door and out-door patients is provided. It is considered that the Act should be proclaimed as soon as possible.

Report on Operations for the Year ended 31st December, 1935.

Male Section.

Honorary Consulting Adviser—Glen Howard Burnell, M.D., B.S., F.R.C.S.

Medical Officer—Gilbert Edgar Jose, M.B., B.S., F.R.C.S.

Second Medical Officer—John Matthew Dwyer, M.B., B.S.

The Clinic has been managed on the same lines as during the past few years.

The attendances have been, on the whole, as regular as individual circumstances permit, and the large majority carry out their treatment intelligently and well.

The duration of treatment in this majority has been quite satisfactory.

#### Female Section.

Honorary Consulting Adviser—Reginald Francis Matters, M.B., M.S., M.D., F.R.C.S.

Medical Officer—Harry Medcalf Fisher, M.B., B.S., F.R.C.S., D.G.O., L.M., M.C.O.G.

It will be noted that there has been a considerable reduction in total attendances, but we must not jump to conclusions as to a reduction of incidence in the community. It may be that, owing to bettered economic conditions, more patients seek private advice. However, the results of treatment have been uniformly satisfactory, due in no small measure to the excellent work and care of the nursing staff.

Methods of treatment will be discussed in the next annual report.

## DA COSTA SAMARITAN FUND.

TRUSTEES.

C. E. Spiller, Esq., J.P. (Chairman).Andrew D. Young, Esq., J.P.B. P. Martin, Esq.

SECRETARY.

H. G. Nelson, A.F.I.A.

The Da Costa Samaritan Fund was inaugurated in 1898, through the munificence of the late Miss Louisa Da Costa, who left portion of her estate to be held in Trust, the income therefrom to be used for the benefit of convalescent patients of the Adelaide Hospital.

In accordance with the Trust Deed, the estate is vested in three (3) Trustees. The appointment of any Trustee is subject to the approval of His Excellency the Governor.

During the year 1935, five hundred and twenty (520) convalescent patients, who were in needy circumstances, were assisted by the Trustees. Of this number, 286 were sent to St. Margaret's Convalescent Home, Semaphore, and 234 were supplied with surgical appliances, &c. The amount disbursed in this manner during the year was £804 6s. 5d.

In order to be eligible for assistance from the Fund, patients must be certified as convalescent by the Medical and Lay Superintendents of the Adelaide Hospital.
